Radius

Bedford Radius Walls allow for great versatility. Best utilized in non-retentive applications, Bedford Radius adds a special design flare to fire pits and serpentine walls. They are a nice compliment when used with Bedford Tumbled Walls. When adding curves to your project, they allow you to create a 21" interior radius without any cutting.

Standard

Bedford Tumbled Walls are ideal for many non-retentive applications including fireplaces, seat walls, columns, and as borders for gardens, patios, and courtyards. Depending on the way the block is turned, one shape can appear like many. Showcasing an authentic Old World stone look, use them for retainable walls under 20" in height.

New color now available - Ivory.

About Reading Rock, Inc.

Since 1947, Reading Rock has had a passion for manufacturing quality building material products and providing exceptional services. While our level of dedication began on a small scale as a block manufacturer, today Reading Rock is recognized for solutions and services that extend into five divisions: hardscapes, precast, masonry, tile and hearth. From the plant floor to the job site, we are committed to enhancing our customer partnerships through quick product turnaround, on-time delivery and our resolute focus on continuous improvement. At Reading Rock, we never relent on ways to improve our processes to ensure we exceed expectations. With state-of-the-art technology, certified technicians, in-house LEED APs and engineers, we’re confident you’ll experience the Reading Rock difference by receiving the right products, on time, every time.

Conducting business throughout the United States, Reading Rock strengthens American communities. Our core values of Responsibility, Openness and honesty, Continuous improvement, Knowing the customer, and Safety are firmly rooted in the Reading Rock team. As part of living these values Reading Rock supports and helps finance the initiatives of the International Rett Syndrome Foundation (IRSF).
