Why choose TruStone Travertine pavers over concrete products? Concrete paver manufacturers have tried to imitate the look of real stone for years. They know there is no comparison to the real thing. Concrete products are still just "manmade".

Our Product

With a real TruStone Travertine application, you have an unmatched natural beauty, no two pieces being the same. When used in a patio, walkway, or pool, the blend of natural colors and textures is breathtaking. With TruStone Travertine you will now have a piece of art at a reasonable cost that will last for generations. The surface underfoot stays cool comparable to the stone imitations because there are no metals in TruStone Travertine products, unlike concrete which contains metals that retain heat in the summer months. Our pavers are also calibrated and rectified. Which means the use of sand between the joints is unnecessary. TruStone Travertine's unique capillary action allows moisture to escape, even in the most extreme freeze-thaw cycling without stressing the materials (which is very important in Northern climates). The stone's surface has a high coefficient of friction for a non-slip exterior, even when wet. Since TruStone Travertine has been compressed in its natural state for millions of years, it is extremely durable and has a PSI strength stronger than most concrete products.

Colors & Sizes

Our pavers are 1.25" thick for patios and walkways and come in a variety of sizes including: 4"x8", 6"x12", 8"x8", 8"x16", 16"x16", 16"x24", 24"x24".

Patterns

We stock large French (Versailles) patterns, which include: 8" x 8", 8" x 16", 16" x 16" and 16" x 24".

Column Caps and Coping

We also carry Mini Slabs 36" x 48" x 2", Coping for pools, step treads, and bench seating. Our coping comes in 1 25" & 2" thickness, with widths in 12" & 16" and lengths from 24" to 72" (2" thickness only). Column Caps come in 2" thickness and are 24" x 24" in size. Caps come with bullnose finish. We also have custom fabricators that can do radii, cutting, and bullnose finishing to your specifications.

Please Note: Stone products are of a natural origin and will have variations in color & marking. Sample pictures furnished represent only the general coloration & structure of a particular type of stone.
